*Taxidermy is an art and a long term commitment to excellence. Our dedication to perfection will take approximately 12 - 30 months to complete the process. Extra skinning and sewing charges may apply. Return shipping and handling is not included in custom taxidermy orders.*

Bear mounts and rugs being sent or returned out of province will require a return export permit at a cost of \$40.00 if we supply it for you.

\* Items require export permits if from out of province. If from Alberta you may need to provide a Trapping license number or hunting license tags or a legal land description where hunted with land owners permission.

FOR ALL YOUR HOME TANNING KITS AND CHEMICALS PLEASE SEE ANIMAL DAMAGE CONTROL SECTION

## HIDES AND CUSTOM TANNING ONLY ACCEPTED AT OUR EDMONTON LOCATION.

Fur Pelts such as Beaver and Coyote should be brought or sent in **STRETCHED AND DRIED** as this produces a better quality fur. We suggest that **BEARS** be sent frozen rather than stretched or dried.

**BUFFALO** hides taken between March and October are subject to shedding and are not recommended for hair on tanning.

Bears from out of province, when we return them to you, will require a return export permit at a cost of \$40.00 if we supply. All tanning will take approximately 6-12 months. Items sent in cased will be tanned cased; subject to additional charges. Any item tanned into leather is done in a natural color and garment weight only. Any 1/4 hides received for tanning into leather will not be replaced if lost or destroyed. Untannable or rejected hides will not be returned. All items are left at the owner's risk.

### SHIPPING INSTRUCTIONS

All items being shipped for custom tanning must be salted, stretched and dried or frozen. **DO NOT SHIP FRESH HIDES.** Wrap hides in two plastic bags and then place in a cardboard box. Ship items prepaid and door to door by truck (transport company) or bus at the beginning of the week to ensure receipt before Wednesdays.

We require a deposit of \$40.00 per hide for items being tanned into leather and \$150.00 for items tanned by the square foot. Please include your deposit along with your name, address and telephone number with the hide as well as an export permit if required.

All big game hides must have the hunting tags attached (except for Alberta Deer, Moose and Elk). All furs require a trapping license number or a legal land description if on your land and out of province items must be accompanied by a fish and wildlife export permit from the province it was obtained in. Lynx/Bobcat, Otter, Fisher and Wolverines must have a registration tag or export permit.

### HANDLING INSTRUCTIONS

Before salting or freezing a hide or pelt you must allow the skin to cool in order to reduce spoilage. Lay the hide or skin flesh side up until all the body heat is gone. Cooling time will vary depending on the hide type and air temperature. After the hide or skin is cool to the touch you can freeze, salt or in some cases flesh, stretch and dry it. **DO NOT FREEZE YOUR HIDE WITHOUT COOLING IT FIRST. IT MAY START TO SPOIL BEFORE IT FREEZES.** If you are uncertain on how to handle your hide or pelt please call **1-800-353-7864**.

‡ Items require export permits if from out of province. Alberta residents may need to provide trapping or hunting license tags or legal land description where hunted with the land owner's permission.

For Faster Service, Please provide payment and shipping instructions so your tanning can be returned immediately upon completion. Free shipping does **not** apply to custom tanning or taxidermy services.
